**EXAMINER'S AMENDMENT**

***Drawings***

1. The drawings received on July 9, 2003 are acceptable.

***Election/Restrictions***

2. Claim 1 directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claim 16, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, is hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement as set forth in the Office action mailed on August 17, 2005 is hereby withdrawn. In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claims including all the limitations of an allowable product claim or rejoined process claim are presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is

withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joe Powell on August 4, 2006.

The application has been amended as follows:

In the abstract starting with line 12, delete the sentence "In a preferred embodiment, the outer surface of the core is directly, cohesive bonded to the outer layer's inner surface without an adhesive material; in another embodiment, the core is bonded to an intermediate adhesive layer, the inner surface of which is bonded to the outer surface of the core."

Cancel claims 3-5.

Art Unit: 1772

Claim 16, line 1) Delete "withdrawn" and replace with  
--currently amended--.

Claim 16, line 1) Add --consisting-- between "core" and  
"of".

4. The following is an examiner's statement of reasons for allowance: The closest prior art Cinadr in view of Gebizlioglu fail to teach the tubular core consisting of a chlorinated lower polyolefin. Cinadr teaches the tubular core formed of PVC or CPVC having a chlorinated lower polyolefin as an additive. Cinadr teaches away from an embodiment in which no PVC or CPVC is present in the tubular core since PVC and CPVC are the required elements of the tubular core and the chlorinated lower polyolefin is merely an impact modifier, and there is no teaching in Cinadr or Gebizlioglu to form the tubular core from only chlorinated lower polyolefin.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
